Exercise 4 – Hotel Management System

Question 1

Based on the text, identify the actors of the system.

- Hotel Client
- Receptionist
- Cashier
- Housekeeping Staff
- Floor Manager
- Maintenance Staff
- Bank Server (secondary actor)

Question 2

Identify the actions that occur outside the system.

- The client arrives at the hotel.
- The client requests additional services (breakfast, lunch, dinner).
- The client pays the invoice at check-out.
- The client leaves the hotel.
- The housekeeping staff physically clean the rooms.
- The floor manager physically inspects the rooms.
- The maintenance staff physically repair the rooms.

Question 3

If we wanted to decompose the system into boundaries, what would these boundaries be?

- Reservation
- Stays
- Billing
- Room Maintenance

Question 4

Draw the use case diagram of the system with functional boundaries (modules).
